**The U.S.  
Constitution  
As used by  
our current  
government**

**WE THE CORPORATIONS** in order to form more perfect profits, establish injustice, and insure foreign disharmony. Provide for the common offense, cut all general welfare, and secure the blessings of our stock options, for the one percent and their posterity. Do ordain, and establish this Constitution for the Corporate States of America.

### **The Bill of No Rights**

#### **Amendment One**

Congress shall make any law it pleases that disrespects any established religion, as long as it is in the name of Political Correctness, and shall restrict free speech if said speech is dangerous to the government's agenda.

Congress shall not restrict Wall Street's use of the press and other media to further their aims.

Congress shall not restrict the people's right to peacefully assemble, however this shall be ignored when it is convenient to do so.

Congress shall also allow the people to petition the government for a redress of grievances, but this also shall be ignored at their discretion.

#### **Amendment Two**

The People's right to keep and bear arms will gradually be restricted, and eventually abolished when in the government's judgment, it is most convenient and practical to do so.

#### **Amendment Three**

Soldiers shall be quartered in private homes whenever the government finds it convenient, without the consent of the property owner.

#### **Amendment Four**

Citizens shall be searched, spied on, and

observed by the government whenever they deem necessary in the name of national security without a warrant. Those who publicly object to this are subject to arrest, and can be held indefinitely without trial or defense.

#### **Amendment Five**

The people can be subjected to loss of life, liberty or property whenever the government finds it convenient. Property may be seized at government discretion, the property owner compensated at ten cents on the dollar, and the confiscated property may be resold to a private developer for ten times what the government paid the citizen in question.

#### **Amendment Six**

People arrested for a crime have a right to a trial, when, and if the government finds it convenient.

#### **Amendment Seven**

The same applies to civil cases, unless such a civil claim is in small claims court in which the government couldn't care less one way or another.

#### **Amendment Eight**

Excessive bail shall be required, and excessive fines shall be imposed, as well as cruel and unusual punishments inflicted.

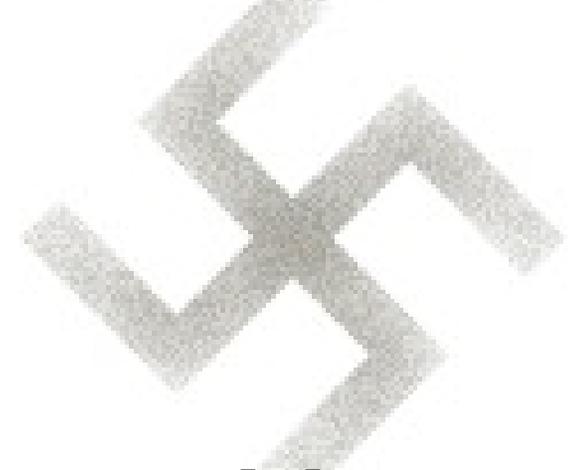

#### **Amendment Nine**

The enumeration in the constitution, of certain rights, shall be altered or denied to the people by the government at their convenience.

#### **Amendment Ten**

The powers not delegated to the federal government by the constitution, nor prohibited by it to the states, are reserved to the states or the people. However, this may be ignored or changed by the federal government without notice whenever it is convenient to do so.
